

MoHA Cable Guide

Audio Cables

1/8" cable aka headphone jack

A classic. Apple hates it, the people demand it.

RCA Cable

A very standard audio cable.

1/4" cable

Another stone cold classic. Used for instruments and plugging things into things

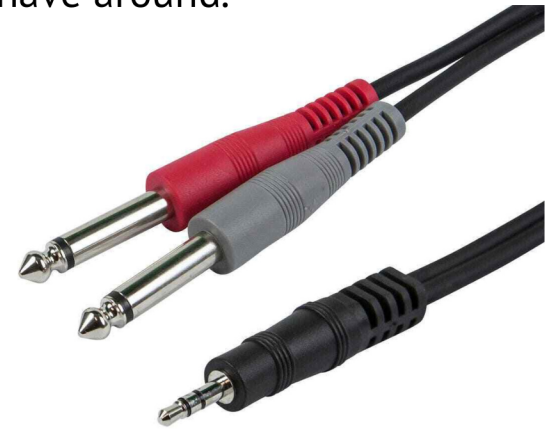

1/8" to RCA

A very standard adaptor to go from headphone jack to RCA

1/8" to (2) 1/4"

A combo! Very important cable to have around.

1/4" Cable Info

Different types of 1/4" cable info.

Audio Cables Pt 2

XLR Cable

Used for mics. Very common audio cable.

Speakon Connector

Not necessarily audio specific, used in speaker cables to lock the cable in place.

Banana Plug

Not necessarily audio specific, this cable is used to plug in amplifiers and speakers.

Video Cables

HDMI

A standard in modern video connections.

VGA

Older analog video cable

Composite Video

Standard video connection, seen on older analog equipment

Composite Cable

Popular with millennials and gen x. This cable combines video and audio signals.

Mini Display Port (DP)

A specific and weird one that many older Macs have instead of HDMI out but before Thunderbolt.

Display Port

Digital video port seen on gaming specific devices.

Other Cables

Coaxial

Many different things get sent on this cable! You may know it from antennae and/or cable tv.

Ethernet

Another classic cable!
Important for internet
and sending data.
